Mr. Englund continued the journey to New York City where he spent several days visiting with friends and relatives.

A SHORT-LIVED REVOLT

The Gazette notes that the war in Iron County, Mich., is over. An armistice has been signed and forces have been withdrawn, and now the matter centers on the treaty of peace and the investigation. Nobody has been arrested. A considerable quantity of wine has been spilled and the air is full of smoke arising from the charges and insinuations and recriminations that have been fired back and forth for several days. According to the belief of most citizens, the upshot of the whole matter is that the federal authority is recognized, even though nobody has been put in jail for initially failing to recognize it satisfactorily. The county prosecutor has called the whole affair a hoax, but it was more than that. Perhaps it was a blunder on his part and perhaps a bit of excessive zeal on the part of the prohibition enforcement agents. At all events, the people of Iron County have learned that there is a thing called a prohibition law, that the United States Government stands behind it, and that the Government at Washington still lives. That is a good lesson or a community to learn.

MARRIAGE LICENSES

W. Warren Snyder and Susie S. Baker, both of Snake Spring Twp.

Robert J. Foor of East Providence Twp. and Carrie M. Ritchey of Tatesville.

Baker Explains Burial Rights

If such is the wish of the nearest of kin, the bodies of American soldiers overseas will not be disturbed in any way whenever possible, Secretary Baker announced. In case where the men are buried on private ground or in isolated spots where the graves cannot be given proper attention, however, they will be reinterred in permanent cemeteries abroad.

Do you know that temper is the most superfluous thing in the world. You can lose it as often as you please and still have enough left to fall back on.

Sympathy is wasted on the man, who in the sweet dry and dry, will think of the cherry as the best part of the cocktail.

RECRUITING DRIVE GOING ON

Progress of the Recruiting drive and a word to the Mothers and Fathers of boys of military age in this district, by the Bedford Recruiting Sergeant.

If you desire to see your son grow to manhood fully equipped to battle with the problems of life, if you wish him to be strong of body with a brain filled with useful knowledge, if you would like to be sure that his associates were red blooded men striving to develop their minds and bodies, just advise him to spend three years with Uncle Sam in the NEW DEMOCRATIC PEACE TIME ARMY. During the great war mothers and fathers were called upon to give their sons to their country, not knowing when or whether ever they would be permitted to return. Those were the dark days and sleepless nights in homes where one or more boys had gone forth to keep the Stars shining for Uncle Sam and to aid nations that had been fighting for four long years in defense of all that was near and dear to them. France a country much smaller than the state of Texas lost five million men in this war and there was not a home that was not in mourning for the loss of a Father, husband, a son or other near relative. Today Uncle Sam needs your son but not to send him forth to battle. He wants him to fill a gap in the NEW DEMOCRATIC PEACE TIME ARMY. They will furnish him with good clothing, clean, comfortable quarters give him an education or vocational training, supply him with good food and plenty recreation, pay him salary equivalent to \$4 per day and return him to you at the end of three years better in every way than when you sent him away. You may ask why the army offers so much to a young man to-day. When the young men were called to the Colors it was discovered that thousands of them were unable to read or write and schools were established to correct this. In many cases the boy had lacked the opportunity of attending school, in some cases it was the fault of the parents, but to return to the army schools, they produced such good results that it was decided to continue them under the best instructions that the Army can provide. And today Uncle Sam can guarantee to return a man to civil life after his enlistment better in every way than when he entered the service. A good piece of workmanship and a satisfied customer is the best advertisement within the next few years men will be begging to get into the service. In the Philippines just after the insurrection a Battalion of native scouts was organized and difficulty was experienced in securing sufficient men for one battalion. Today there is about forty battalions and there is not only no vacancies, but each battalion has a waiting list which in some cases is nearly as large as the battalion itself. It is seldom that anything excepting death causes a vacancy in one of these battalions. And just as soon as the young men of this country wake up we will have, instead of recruiting offices and recruiting drives, waiting lists. Then there will probably be competitive examinations, similar to the civil service. But today Uncle Sam needs men and needs them very badly. There are batteries of field artillery with scarcely enough men to groom the horses and care for the guns, so it is absolutely necessary that they have more men in order to train the ones that they have. Men without prior service may enlist for one year for the field Artillery and all men from one state may serve together if they so desire. Some organizations are offering a thirty day furlough after the first pay day. Never before has there been offered anything like this. THE NEW DEMOCRATIC PEACE TIME ARMY is lots better than the old army but it is much larger and needs more men. So fathers and mothers of Bedford County in the name of this army I am asking you for your boy, if you can possibly spare him, for at least one year. If there is anything that you would like to know, any questions that you would like to ask, will be pleased to answer them. The office is open every day from 8 A. M. to 8 P. M. or you can ask your questions in the form of a letter. If you can possibly do so, come to the office and ask for Sergeant Sandoe and I will answer any question about the service. I have been answering questions about the army for more than twenty years. The Harrisburg District continues in third place. Bedford is gaining slowly. The boy that we supposed had a patriotic look was simply bewildered by the traffic on Pitt Street and it was only a mistake thinking that he had any intentions of doing anything to help his Country.

RUSSELL FREEMAN CABLE

Russell Freeman Cable, son of Mr. and Mrs. James M. Cable, of Point, died of pneumonia on February 26, 1920. At the time of his death the young man was aged 23 years, 7 months and 17 days. He is survived by his father and mother, four sisters, Mrs. Myrtle King, of Altoona; Mrs. Claude B. Miller of Petersburg; Jennie of Roaring Springs and Lucille at home; and one brother, Stewart at home. The funeral services were conducted at the home by Rev. M. J. Weaver of Roaring Springs. The remains were interred in the Schellburg cemetery beside his brother, John who died just fifteen months ago.

Russell was a much esteemed young man and had a host of friends. He will be greatly missed especially in his Sunday School class and in his home where his place was never vacant.

WE REPEAT--\$600,000 OF AVAILABLE ROAD MONEY SACRIFICED

A few weeks ago the Bedford Gazette published an article on the Road question and the plausibility of building a road from Yellow Creek to the Huntingdon County line. This stretch of road is 20 miles long. The Commissioners of Bedford County have passed a resolution to bond the County to the extent of \$200,000 to build this 20 miles of road through Hopewell, Broad Top and Liberty Townships. Besides the \$200,000 they also passed a resolution directing the state to use a surplus from Harrisburg, due Bedford County to the extent of \$85,000 making in all an expenditure of \$285,000 for this road alone. The Gazette charged last year in June or July that the \$200,000 would not build more than half that distance and when the road gets under construction the County will have to put up more bonds or the people will have to pay heavier taxes in order to meet the further expense of the road. We are assuming that the road is nothing more than an ordinary county road when we argue thus but it is more than an ordinary road. It is a road with embankments 10, 20, 30 feet down, narrow along these embankments and most places the bed is soaked with water, making the road unstable and prone to slide from under. To build this kind of a road will entail a great deal more money than even \$400,000 and all this will be spent without Hopewell, Liberty or Broad Top putting up a cent of money while West St. Clair, King and Kimmell and Colerain townships are willing and stand ready to match dollar for dollar with the county and the State stands willing to match the county two dollars for one. Thus the \$200,000 of the county's money would make available \$200,000 from the townships and \$400,000 from the State yet Bradley and Layton will sacrifice this \$600,000 available money in order to build a road down by "High seven" and along the Bradley's home, the most outrageous and unbusinesslike practice ever perpetrated on the people of Bedford County. We just wonder how Dr. Shimer of Pleasantville feels about the contract which he is reported to have pulled off before the election with the Supervisors of West St. Clair township, they say, at 1 o'clock at night. He would feel ashamed to face the people in his own community after such ardent promises and wholesale lies were stacked at election in order to boost up James for District Attorney and help Smith in his future. Colerain township has the money raised for its roads promised by the County Commissioners and the people stand ready for an extra millage to have more raised. This money is in the collector's hands but no road is coming to Colerain until the other road is built, says the County Commissioners, Bradley and Layton, and none will come for the next five or six years if the \$200,000 road goes through all at the county's expense. No doubt King and Kimmell are ready with their money and many other districts are anxious for the opportunity to put up dollar for dollar.

Such business methods in the Commissioners office were never surpassed. But we are getting under their hides. Since our other article Bradley paid back to Bedford County \$37.36 for over collections on expenses and Layton paid back \$59.28. There are other items we can cite which Bradley and Layton ought to be made to "cough up" the amount to the county. The Gazette offered to print the Court Calendar at the rate of \$5 an issue yet these two incompetent buncombe Commissioners see fit to pay \$10 for the printing of the calendar and thus squander \$60 to \$75 each year needlessly if business methods would be used instead of methods to pay political debts. Besides we were permitted to observe a bill sent into the Commissioners office for printing 1000 sheets 8 1/2 by 14 on both sides for \$14 and we could print the same sheet the same way for \$8 and make money on it. The extra \$6 is nothing more than plain downright graft and slush fund. We could cite you numerous instances in which Bedford County people are paying the political debts of the office holders out of their own pockets. If a commissioner will do such things in one instance openhanded what would he do behind the curtain where no eye can see? Think these things out for yourselves. This is no political tract. It is a publication of the most rotten, unbusinesslike methods ever promulgated at the hands of two county commissioners. The reason the Republican papers do not say anything is because they are getting the swag. Except the poor Saxton Herald who got \$10 last year.

FARM BUREAU NOW ORGANIZED

WHAT YOU SHOULD KNOW ABOUT THE BEDFORD COUNTY FARM BUREAU

The Bedford County Farm Bureau was organized some months ago by the farmers and business men of Bedford County for the purpose of co-operating with the Pennsylvania State College in order to have a trained Agriculturist located in this county. The membership of the Farm Bureau is made up of farmers and business men who are anxious to develop the agriculture of Bedford County and are willing to cooperate in this movement.

The establishing of Farm Bureaus and the placing of properly trained men in the various counties is a part of the Agricultural Extension work of the Pennsylvania State College. For many years the Experiment Stations in the different States have been conducting numerous investigations concerning the various farm problems such as soil fertility, feeding, farm animals control of crop diseases and insects, orchard culture, crop improvements, etc. The results of these experiments would be of great value to the agriculture of the state if they could be carried to the people by some practical method. The organization of a Farm Bureau and the placing of a properly trained man in charge of this organization is an effort on the part of the State and National Government, acting through the Pennsylvania State College to give this service to the people. The man located in the county is known as the Extension Representative but better known as the County agent and his salary is paid by the Pennsylvania State College. The local funds provided by the county commissioners under the Act of 1913 are used in paying the expense necessary to maintain the work in the county.

L. R. Mollenauer has been appointed as the Extension Representative for Bedford County and will have Farm Bureau headquarters in the Broad Building, Bedford after April 1st.

He will observe Saturday as office day. The remainder of his time will be spent in work over the county. Telephones will be installed in the Farm Bureau office. Mr. Mollenauer will first acquaint himself with the conditions and people of the county by systematically visiting all communities and calling upon individual farmers.

The services of the Farm Bureau are free to every resident of the county. To secure such services write, phone or call on Mr. Mollenauer at his office. He will be able to give practical assistance on many of your farm problems.

The amount of good the county will get from this movement will depend largely upon the amount of co-operation accorded Mr. Mollenauer by the people of the county.

SUFFRAGE DEFEATED IN WEST VIRGINIA

The West Virginia Legislature defeated the Women's Suffrage amendment by one vote on Monday but the Suffragists have hopes in recalling the resolution before the week is over. One Senator who favors the resolution which adopts the amendment is away in California and asks that he be paired. This will make the vote a tie. With this tie vote it is hoped that a majority may be finally mustered for the adoption of the amendment.

MISSOURI ELECTION LEAGUE INDORSEMENT

Victory for Democratic Candidate on Clear-Cut Issue Raised by Republicans

The election of Capt. Jacob L. Milligan, Democrat, to Congress from the Third Missouri district in the special election of February 14, was a ringing endorsement of the League of Nations and the Democratic administration's record.

The Democratic candidate's platform contained a ringing endorsement of the League of Nations and of the Democratic party's administration of affairs under the leadership of President Wilson.

League the Issue.

The Republican candidate made the race on a platform declaring against any league and criticising the Democratic party's record in Washington. The usual campaign of misrepresentation against the league was waged by the Republican speakers, many of whom were rushed into Missouri to stump the district for Frost. Most notable among the Republican orators was Senator Johnson of California, who spent a week in the district. Senator Johnson told his audiences that he looked upon the election as a referendum on the League of Nations; that it was the first of the several special Congressional elections held during the last several months in which the Republicans had had the courage to come out squarely against the League of Nations and the Democrats to accept the gauge of battle upon that issue, and that the result must therefore be accepted as an indication of the attitude of the American people toward the League of Nations whose covenant is now before the Senate for ratification.

Prior to the election Republicans boasted that they were going to win in Missouri—the same boast that was made in the Seventh Alabama and Ninth North Carolina districts—but in this instance they shot even wider of their mark than in the preceding elections. Even if they didn't win, they said, they would so reduce the Democratic majority that the country would regard it as a "moral" victory for the Republicans and the opposition to the League of Nations.

Answer Unmistakable.

Missouri's answer to the Republican challenge is unmistakable. The Republican candidate in the special election of February 14, was the same candidate who ran in 1918. In that election he was defeated by Joshua W. Alexander by 1793 votes.

When Judge Alexander was appointed Secretary of Commerce by President Wilson, in December, and the vacancy in the Third Missouri district was created, the Republicans nominated the man who had made much a strong race in 1918. The Democrats nominated Capt. Milligan of Richmond, Mo., a veteran who saw overseas service, but a young man scarcely known outside his home county prior to his nomination.

The campaign was hard fought and speakers of both parties visited every county in the district. The lines were rigidly drawn and there was no mistaking the issue. Neither is the result to be misconstrued. Despite the fact that the election was in mid-winter, in a rural district where bad roads kept many from going to the polls, and despite the severe epidemic of influenza, all serving to reduce the vote almost 5000 votes under the total for 1918 the Democratic candidate won by an increased majority.

"POSTAGE STAMP BARGAINS" DRAW CROWD OF SENATORS

Members of Congress stamped the little post office at the Capitol recently to buy postage stamps at bargain rates. Each, as he started down the stairs declared it couldn't be done "because Uncle Sam fixes the price of stamps" but when their colleagues declared that two-cent stamps were being sold in lots of thirteen for a cent and a quarter, the doubter said he'd bite and went to buy a supply.

One thrifty member after another laid down a 25-cent piece saving he'd "take a quarter's worth," only to be met with the smiling reply from the lady behind the window, "You've given me the quarter, but you haven't yet given me the cent."

Natural and Artificial Incubation.

This booklet which is issued by the Poultry Division of the Bureau of Animal Industry deals with care of hatching eggs, period of incubation, natural incubation, types of incubators, selection of an incubator, operating the incubator, testing eggs, and the causes of poor hatches. This booklet should help you in the coming hatching season.

You may obtain a copy of this booklet free by asking for F. B. 585, addressing the Division of Publications, Dept. of Agriculture, Washington, D. C.

AMERICAN LEGION MEETING

Attention: A meeting of Post 113 of the American Legion on Wednesday evening, March 10, at 7:30 o'clock in the Court House. All members urged to be present as there will be very important business to transact. Those veterans of the late war not yet enrolled as members have this meeting at which to join for \$1.50. After this the entrance fee will be increased. Join us, we are now 45 strong.

F. V. Lessig, Post Commander.

FOOR — RITCHEY

Sebert J. Foor of East Providence Township and Carrie W. Ritchey of Tatesville were united in marriage on March 3rd at the home of the bride by Rev. H. O. Reynolds.

AMERICAN AIR SERVICE LARGE FACTOR IN WAR

Congressman Lea Shows Part United States Played

In a minority report submitted to the House of Representatives, Congressman Clarence F. Lea, Democrat, of California, member of a committee appointed to investigate the American air service during the war, gives a summary of the contribution made by the United States to aerial warfare against the Germans from June 1918 until the armistice stopped hostilities.

Representative Lea condemns the report of the Republican majority of the subcommittee, and characterizes it as having sacrificed "facts to sensationalism." Chairman Fear of the subcommittee is remembered for his votes against war, conscription, the espionage act and the first bill to provide money for financing the United States as a participant in the fighting.

Recounting the achievements of the air service, Representative Lea's report says:

"During the war America established and maintained more than fifty aviation training schools of various kinds in this country and Europe in which thousands of our young men were trained. She produced 11,760 airplanes, and at the close of the war was manufacturing them at the rate of 23,000 a year. She produced 30,630 aeronautical engines, which had an aggregate horsepower equal to approximately one-eighth of the total horsepower of all the locomotives in the United States.

"She received and paid for 6745 engines and 5071 planes from the Allies, of which over 2500 were service planes used by the American forces in Europe. On the day of the armistice America had 1620 service planes available for use on the front lines. She furnished the materials and supplies that made possible the maintenance of the Allied air forces, and finally resulted in their predominance by nearly 100 per cent on the western front.

"In machines that she owned America's fliers went to the front and established part of the most brilliant record of the war. For each American on our forces who perished in combat an average of over two and one-half of the enemy fell. Thousands of patriotic Americans faithfully, intelligently and self-sacrificingly contributed to this program of accomplishments. For it all the majority of this committee have neither recognition nor commendation. They can only find fault. The reward they offer for this service to their country by their countrymen is snarling criticism, fault-finding, complaints and destructive vituperation."

Seven New Arrivals In White House Flock.

President's Wilson's flock of sheep took a decided increase in their number this week by the birth of seven baby lambs. This increases the number of the flock to 37. Of the new arrivals there are three sets of twins. The original flock consisted of seven sheep when it was purchased by the President three years ago. They are used to keep the grass clipped on the White House grounds.

R. R. Deficit 715 Million Dollars.

With the return of the railroads to private control on March 1, the steady and increasing deficit under Federal control reached to \$715,000,000. This, the Director General said in his report to the President would have happened under either Government or private control. "Private control would have encountered mounting expenses during the war and the period immediately following the armistice, in the same form the Government did," said the report, but it would not have been able to effect as many economies as did the Government with its centralized administration.

Thousands of wounded soldiers confined in army hospitals throughout the country will greatly miss the Federal control, or with the passing of the railroad administration, they will lose their rate of one cent a mile when traveling on furloughs to their home. This rate was granted to them under Federal control and is now withdrawn.

Soldier Measures Go To Means Committee

In an effort to expedite the passage of some sort of legislation to benefit the world war veterans, House of Representatives democrats joined with republicans in sending all bonus and land grant bills that have been introduced to the committee on ways and means.

GIVE US THE BEST MEN

A presidential year may be described as a stock-taking year. We go over our material in search of the best in the shop. We need the best in our business. The work in the White House makes heavy demands on the man chosen to perform it, while the work at the Capitol is of such sweep and variety that the large number required to perform it are selected with care.

We do not in every case get the best material. Here and there, now and then, a bit of shoddy slips in. But, as a rule, our selections are good, and our public servants acquit themselves so as to earn the respect in which they are held.

The men in public office from this state today and most of those mentioned for office are in their abilities and training and achievements a refutation of the charge that as a nation we are slipping—going back at an alarming speed. We are doing nothing of the kind. The Gazette believes we are today the strongest nation in the world, with resources beyond those of any other nation and fully capable of playing the part for tune has assigned us.

STATE LICENSES FOR ARCHITECTS

Applicants Must Submit Three
References and Give School
and College Records

OFFICES IN HARRISBURG

Interesting News Items, Briefly Con-
densed, Picked Up at the Depart-
ments, Which Are of Interest
to the People of the State.

Harrisburg, Pa.—Examinations of applicants for State licensure as architects will be held twice a year in two or more cities of the State under the rules adopted by the new Pennsylvania Board of Examiners of Architects. The board will meet in Harrisburg the last Tuesday in January, April, July and October, the latter being the annual meeting of the board. The officers of the board will be in Harrisburg where Miller I. Kast, the secretary of the board, will receive the applications. Under the rules adopted for registration, applicants must submit three references and give school and college records. State licensure will entitle the architect to use the initials R. A. after his name and all persons not engaged in architectural practice prior to July 12, 1918, in Pennsylvania will be subject to examination, although any architect who has practiced outside of the State for ten years may register after passing a practical examination.

A complete system of licensure has been worked out under the terms of the law passed by the last session of the Legislature.

Distribution of Game.

Scores of young game birds are being distributed among State game wardens for placing in the game preserves in the State Commission system when the weather moderates and if possible a number of quail will be obtained from Mexican highlands. Larger purchases of game have been made this winter than heretofore and deliveries will continue for the next six weeks.

Warnings To Farmers.

The State Department of Agriculture has issued warnings to farmers to watch for signs of the brown rot or other diseases which often appear after a long winter. Special warnings have been given to closely observe orchards for traces of pests.

Drunken Drivers Cannot Get Licenses.

The automobile division of the state highway department has ruled that persons convicted of driving automobiles while intoxicated cannot obtain licenses for a year.

Pennsylvania National Guard.

Notice has been received by Adjutant General Frank D. Beary that the Adjutant General of the Army has agreed to his proposition for Federal discharge of reservists, either commissioned officers or enlisted men who may join the Pennsylvania National Guard. The discharges will be issued upon proper notice to the War Department. The effect of this decision says General Beary, will be to enable many well qualified and experienced men to join the new Guard immediately.

Epidemic of Measles.

Health department officials called attention to the prevalence of measles in Pennsylvania. In January the state had 8,905 cases or 297 more than in December and 6,647 more than in January, 1919. The January record has been exceeded only once before in the history of the department, while mortality figures show measles cause more deaths than scarlet fever.

Food Receipts Jump.

Receipts of the bureau of foods of the state department of agriculture were \$741,487 last year. This breaks all records and is largely due to the numerous licenses issued for the sale of alcohol during the same period the bureau expenditures were \$87,961. The receipts of the bureau analyzed 6,571 samples during the year.

Non-Resident Hunters' Licenses.

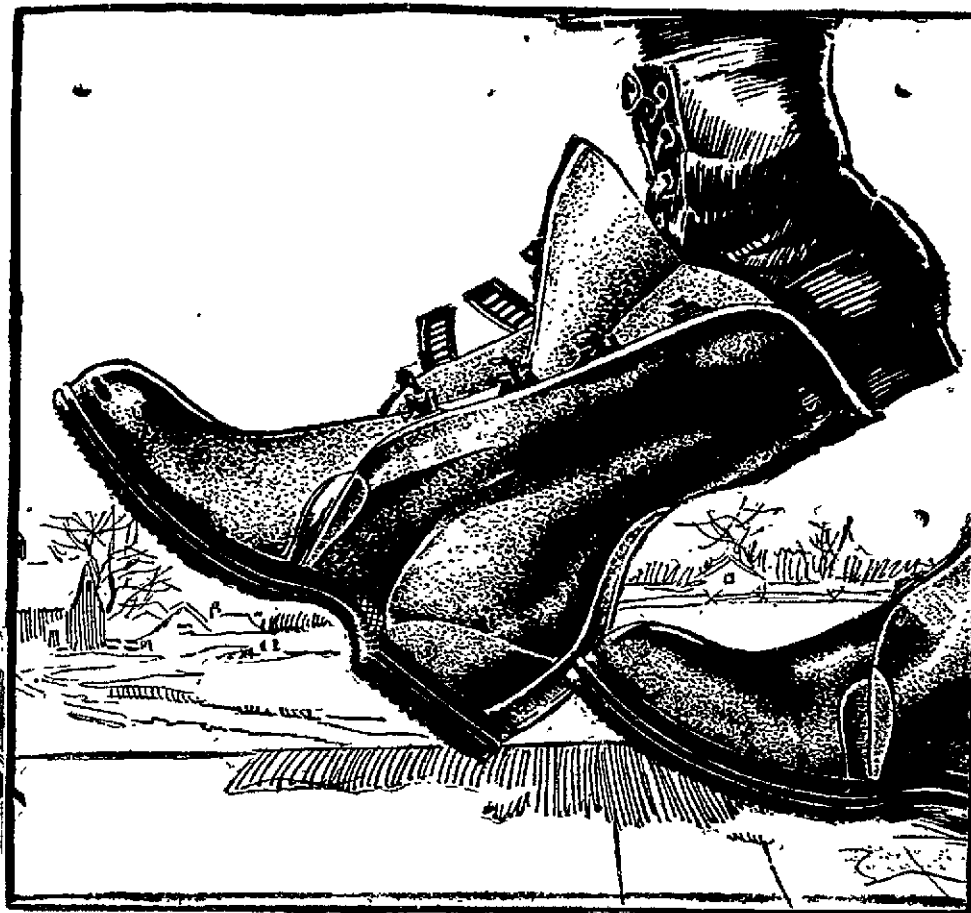

The game commission has accepted the compilation of the issue of non-resident hunters' licenses. The number issued was 1,100, which is the largest ever known in the State.

Large Highway Maintenance Force.

Owing to the increase in work required of the State Highway Department due to the heavy snows the maintenance force now includes 3,492 laborers, 378 foremen, 106 caretakers and others totalling 4,011 men. In addition there are many trucks and 1,044 horses.

Ruling on Agricultural Accidents.

Accidents occurring in agriculture are to be considered industrial accidents within the meaning of the act of 1919 providing for a system of rehabilitation of persons handicapped by injuries due to their employment, according to a decision given by the Attorney General's Department to the Department of Labor and Industry. Persons hurt in going to or from employment are not to be considered as coming within the scope of the act if they are injured while on trains or other transportation.

Wash them clean —slip them off

Walk into the house with warm, dry feet—
that's the new "U. S." Walrus

QUICKLY cleaned under a faucet or with a pail of water—buckled or unbuckled in an instant—warm and water-tight always—that's why farmers everywhere are buying the new U. S. Walrus. You need a pair for all-year-round use—for dozens of odd jobs around the farm.

You can slip on the U. S. Walrus right over your leather shoes—and slip it off with your toe when you're through. Its thick, fleecy lining keeps your feet comfortable in the coldest weather.

Wherever you go—tramping through snow and slush—splashing through water half a foot deep—the U. S. Walrus gives you perfect protection. And then at your doorstep—no matter how dirty and muddy they may be—a moment's wash under a faucet leaves them as clean as before you started out. Every trace of mire washes quickly off their smooth rubber surface.

Made by the oldest and largest rubber manufacturer in the world, the U. S. Walrus is built to last. At the very points where ordinary overshoes are

weakest, the U. S. Walrus has been made *strongest*. Every point of strain is heavily reinforced.

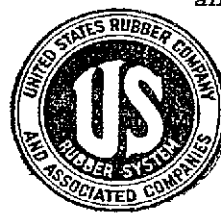

Ask your dealer to-day to show you the new U. S. Walrus. Look over the rest of his U. S. line—boots, booties, arctics—whatever you need. Tough, heavy soles—special reinforcements at toe and heel—and *always* the highest quality rubber—these points are winning U. S. rubber footwear thousands of new friends every year.

Ask for U. S. rubber footwear—it means solid wear and long service for your money.

"U. S." Arctics—Made of snow-tight cashmerette, warm and comfortable. Reinforced where the wear is hardest. In one, two, four and six buckles, all weights and sizes.

Just as Good.

Bobby, just home from his first visit to the country, was telling the folks of his wonders. "And say, ma," he said, "out on the farm they get milk from cows, and it's just as good as any."—Boston Transcript.

Useful, Anyway.

Bacon—"Been buying a couple of books, I see." Egbert—"Yes; just got 'em down the street." Bacon—"What books are they?" Egbert—"One's a cookbook for my wife; the other's 'First Aid for the Sick,' for myself."—Yonkers Statesman.

Nothing New Under Sun.

New York Tribune discovers that Burke used this expression: "I should say they did." In Charles Dickens' "Sketches by Boz," a street urchin shouts to one of two fighting women, "Put the kyebosh on her Mary." There is nothing new, not even in slang expressions.—Florida Metropolis.

Too Precious to Part With.

New paper guilder currency recently issued in Java by the Javasche bank was so admired by the Chinese and natives when first issued that it was hoarded. The notes were printed by an American company and include 2½-guilder and 1-guilder denominations. They were intended to relieve the present scarcity of silver coins.

Gold Stone.

Gold stone is a sort of an opaque golden brown glass filled with minute crystals of a bright gold color and of various sizes. It is used for ornamental purposes. Its preparation was accidentally discovered at Murano near Venice, Italy, when a quantity of brass filings dropped into a pot of melted glass.

Marking Linen.

When marking linen with ink, first make the initials with a lead pencil and then trace the ink over the pencil marks. This will prevent the ink from spreading.

THE UNIVERSAL CAR

There are mighty good reasons why you should buy your Ford car now. But the biggest one is that there are only so many Ford cars — just a specified limited number — allotted to this territory. Those who buy their cars now will be wise. They will have them to use whenever they wish.

Don't put it off — next spring, even next month, is an uncertainty. We cannot take orders for spring delivery. Even now, we must have signed bona-fide orders before our monthly allotment is shipped us. So the only way for you to be sure of getting a Ford car, is to order it now. Get your name on an order. It is your protection.

Again we tell you, the allotment for this territory is limited and you must buy now while deliveries are possible. As ever, the demand for Ford cars is away in advance of production. So, it's first come, first served. Spring, summer, autumn and winter are all the same to the Ford car. It is a valuable servant every day of the year. Rain or shine, it is ready for your demands. Buy now and get prompt delivery. You won't have to store it. You can use it. Buy now while the buying is possible.

MRS. ELIZABETH SMOUSE

Mrs. Elizabeth Smouse, died at the home of her daughter, Mrs. S. S. Little, Pittsburgh, on February 24, 1920. She was born at Echert Mines, Md. and was a daughter of John and Henrietta Neff, deceased. At the time of her death, which was caused by the infirmities of age, she was in her 95th year. Her husband, Peter Smouse, to whom she was united in 1844, passed away in 1882.

Deceased was the last member of a family of six and is survived by the following children: William H., Charles A., and Bender of Cumberland, Md; Theodore, of Newark, O; J. Neff, Mrs. A. Wellison and Mrs. S. S. Little, of Pittsburgh; and Mrs. A. L. Witters, of Patterson, N. J. She is also survived by 29 grand children and a number of great grand children.

The funeral services were conducted on Thursday afternoon, February 26, at 1:30 o'clock at the home of her son, William H. Smouse, Cumberland, by Rev. J. M. McFarland, of Union Grove, assisted by Rev. Joseph Dawson D. D. of Center Street Methodist Episcopal church. Interment was made in the Lutheran cemetery on the Bedford Road.

Mrs. Smouse, known to many as Grandma, was a consistent member of the Methodist church for about eighty years and one of the greatest benefactors of the community in which she lived, bestowing that precious gift of sunshine and love that the world so much needs. No one could come near her without feeling that they had been before one who lived in the very presence of God. Many are they who mourn her "because she is not for God took her"

THE NEW CO-ED

by The High School Literary Society

The theme of this play is the arrival of a new student at college, her reception, her trials and how they terminate. The development of the theme gives rise to many peculiar and humorous situations. Following is the cast of characters with a word of explanation concerning each:

Letitia (Letty) Willis—A new student from a small town—Helen Will.

Madge Stevens—Letty's friend and champion—Margaret Naus.

Estelle Doolittle—A spoiled beauty—Margaret Litzinger.

Miss Rice—the land-lady—Pauline Pepple.

May, Rose and Grace—college chums—Bess Shires, Anna England, Kathryn Sammel.

Richard (Dick) Bradley—the athletic star of the class—Everard Leberknight.

"Punch" Doolittle—The mischievous, work-hating brother of Estelle—Harrison Allaman.

Jim Young—a neutral and coach of the Dramatic Club—Harry Brightbill.

George Washington Watts—porter at Miss Rice's a gentleman of color and "peace"—Lamont Roberts.

It's getting so that a Senator cannot really call his administration a success unless he is at least mentioned for President.

Many a man who thought he knew all about railroadings is now wondering whether he will have to begin over and learn the business.

SAXTON

(Held over from last week)

Mrs. Charles West, who has been confined to her home in the Stapleton Building on Railroad Avenue, is slowly improving.

Inzy Grace, son of the late Isaac Grace, who was suddenly attacked with appendicitis on Tuesday and was rushed to the Roaring Spring Hospital, was operated upon Wednesday. Word has been received that the operation was a success and that the patient is doing well.

W. H. Hamilton, our local butcher has received the first shipment of a fine lot of Western Cattle which he has purchased. These cattle will be slaughtered and served to Mr. Hamilton's trade.

A. Giuliana and wife are both confined to their home on Letitia Street ill.

Church returned Saturday from Harrisburg where he attended the conference of the Inter-Church World Movement of North America, which includes all of the Evangelical churches in Pennsylvania. The conference was in session Wednesday, Thursday and Friday evening.

T. J. Hickey, royally entertained the local soldier boys last Friday evening, when he had them as his guests at the Liberty Theatre, where he put on the beautiful war picture "The Heart of Humanity". After the Picture Show the boys lined up sixty in number, under the command of Captain Blossom of the U. S. Army recruiting party that was in town, and marched to the Virginia Cafe where the dinner awaited them. E. C. Morris, the caterer, proprietor of the Virginia Cafe, was on the job, and as soon as the boys were seated they were served with an abundance of dainties. After the boys were all filled the story telling began at which time Rev. Harris, Rev. Bear, Capt. Blossom, S. H. Little and others gave addresses.

Zana Russell, daughter of D. P. Russell, of Shy Beaver, who was assistant freight agent at Dudley, died at the home of Edward Trece on Miriam Street Monday night of pneumonia, after a brief illness of less than a week. The body was taken to her home in Shy Beaver by Undertaker Huff on Tuesday Morning.

WALTER B. GILSON

Walter B. Gilson died at his home in North Bedford Township February 13, 1920 after an illness extending over three years. About three years ago Mr. Gilson suffered a stroke which was followed by dropsy. His suffering was intense.

Mr. Gilson was born on the farm where he died February 12, 1837, and was at the time of his death 83 years and 7 days old.

Mr. Gilson always resided on the same farm except the time he spent in the army during the Civil War, being a member of Co. F, 56th Reg. Pa. Inf. He was the son of Alexander and Frances Brown Gilson and was married to Elizabeth Griffith Dec. 14, 1865. His wife died more than five years ago. He is survived by one son Edward and a daughter Miss Venie Gilson. Also by one sister, Miss Jennie Gilson and a brother Wm. A. Gilson, of Denver Colo. The daughter and sister resided with Mr. Gilson. He is survived by six grand-children and one great grandchild.

The funeral took place from his late residence on Monday afternoon and was in charge of his pastor Rev. C. R. Allenbach.

Walter Gilson, was a kind father, a good neighbor, a brave soldier and a true Christian gentleman, having been a member of the Lutheran Church of his place for 60 years. Interment in Bedford Cemetery.

Pearls No Oyster Monopoly.

True pearls, from 1/32 to 1-16 inch in size, were found in large numbers on the mucous surfaces of a recent shipment of tripe received in England from the United States. That the occurrence was not unusual, but had merely escaped previous notice, was shown by the examination of fresh specimens taken from native cows, says Popular Mechanics Magazine. The pearls were soft, of course, each imbedded in a cyst, and apparently developed just as in a bivalve.

Getting Rid of House Pests.

Cockroaches or the "croton bug" may be held in check by setting out two saucers, one containing a mixture of flour and plaster paris and the other filled with water. The mixture should be four parts plaster of paris and one part of flour. Badly infested apartments may be thoroughly ridged of this pest by fumigating with hydrocyanic acid gas.

City Lighting Modern.

Lighting up a whole city at night is quite a modern invention, although illumination was used in some of the ancient cities. Paris and London dispute the priority in the matter of modern street lighting. London claims to have lighted its streets with lanterns as early as 1414, but this contention is disputed. During the sixteenth century lanterns for street lighting were provided at the public cost in Paris.

DO YOU HAVE DIZZY SPELL

(It's Important to Learn the Cause. As Many Bedford People Have)

Dizziness is never a disease of itself—it's only a symptom of some deeper-seated trouble. Much dizziness is caused by disordered kidneys failing to filter all the poisons from the blood. These poisons attack the nerves and dizziness results. If you are subject to dizziness, there is good reason to suspect your kidneys, and if you suffer backache, headache, and irregularity of the kidney secretion, you have further proof. Many Bedford people have learned the value of Doan's Kidney Pills in just such cases. Read this Bedford resident's statement:

Mrs. S. Delancy, W. Penn St., says: "Every time I have had any trouble with my kidneys I have used Doan's Kidney Pills and they have relieved me in a short time. Frequently I have had bad pains in my back and severe headaches and I would get so dizzy that the room would seem to be going around. At such times just one box of Doan's have driven the trouble away and I consider them a wonderful remedy for kidney complaint."

IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL LESSON

By REV. P. B. FITZWATER, D. D., Teacher of English Bible in the Moody Bible Institute of Chicago. (Copyright, 1920, Western Newspaper Union)

LESSON FOR MARCH 7

JOHN WRITES ABOUT CHRISTIAN LOVE.

LESSON TEXT—I John 4:7-21.

GOLDEN TEXT—Beloved, If God so loved us, we ought also to love one another.—I John 4:11.

ADDITIONAL MATERIAL—I John, II John, III John.

PRIMARY TOPIC—Loving One Another. JUNIOR TOPIC—Loving God and Our Neighbors.

INTERMEDIATE AND SENIOR TOPIC—How to Show Love for God and His People.

YOUNG PEOPLE AND ADULT TOPIC—Christian Love Upon Society.

I. The Origin of Love (vv. 7, 8).

Love is of God, for God is love. God not merely loves, but he is the fountainhead of love. Love of country, love of humanity, filial and parental love, every particle of love everywhere has been derived from God; his love is infinite, eternal and unchangeable. Since love is of God, everyone who loves is born of God and knoweth God. The Christian, by his life of love, interprets God to the world. It is not enough that the world should be told that God is good and kind, it should see his nature expressed in the life and love of the disciple. The Christian's life is the world's Bible. Where love is wanting, knowledge of God is wanting.

II. God's Manifestation of Love (vv. 9, 10).

God's method of making known his love is through the incarnation—the sending of his only begotten Son into the world to be the propitiation for our sins (John 3:16). The coming of Jesus Christ into the world and his taking on human nature makes possible life for those who receive him. If we would know God's love, let us look at Jesus Christ. Those who gaze upon him in reverent contemplation cannot doubt God's love.

III. The Supreme Motive of Love (v. 11).

God's love is the grand incentive prompting his children to love.

IV. Love the Proof That God Dwells Within Us (vv. 12-16).

1. No man hath seen God at any time (v. 12), but there is abundant proof of his being. The one unmistakable proof of his being is love in the heart of man. Love is not native to the human heart, for the heart is deceitful above all things and desperately wicked (Jer. 17:9). Out of the heart proceeds murder (Matt. 15:19). Love in the heart is proof that God dwells within.

2. Love proves that God's Spirit is within us (vv. 13-16). The fruit of the Spirit is love (Gal. 5:22). God's Spirit dwells within his children. The indwelling Spirit shows us Christ and makes us believe in him as God's Son, the Savior of the world. Those in whom God dwells will always make this confession. Those who deny the Deity of Christ have no fellowship with God and those who have fellowship with God will confess Christ as his Divine Son.

V. Love's Relation to the Judgment (vv. 17, 18).

1. Love is a test. A judgment day is coming, for God hath appointed a day in which he will judge the world in righteousness by that man whom he hath ordained (Acts 17:31). It will be a terrible thing for those unprepared to meet God at that time, but for those who are indwelt by the living God there will be a joyful meeting. He that dwelleth in God and God in him will realize the perfection of love in holiness in the day of judgment, because as he is so are we in this world (vv. 16, 17). The way to get rid of the fear of meeting God in the judgment is to be living with God now.

VI. God's Love the Ground of All Love (v. 19).

The reason we love is that our lives have come into touch with the great fountainhead of love. The increasing of God's love and nature becomes the animating and controlling principle of our lives. The one in whom love is not the master principle does not know God.

VII. The Child of God Possesses Dual Love (v. 20).

The proof that one loves the unseen God is that he loves the person visible who bears the likeness and image of God, and has become a member of the same family through the redemption in Christ Jesus. Love to God and man is united in the one breast of the Christian. The one who hates his brother while pretending to love God is a liar.

VIII. The Solemn Command From God (v. 21).

God commands that those who love him should love their brethren. Obedience to this command will eliminate all war and contentions.

Life.

Life is made up, not of great sacrifices or duties, but of little things, in which smiles and kindness, the small obligations given habitually, are what preserve the heart and secure comfort.—Sir H. Davy.

Our Great Blessing.

There is nothing that makes more for human happiness than the simple fact that some one needs us, that some task is holding us fast. We may ignorantly think of it as a burden, but it is our great blessing.

COMMON SCHOOL EXAMINATION

For admission to this examination each applicant must send a written application to the office of the County Superintendent on or before March 3, 1920. The application must be accompanied by a certificate from the proper teacher giving the age, attendance record for the year, and statement that the bearer has completed the work of the Eighth Grade in a satisfactory manner. Teachers should not recommend pupils for examination unless their work during the term shows that they have acquired some efficiency in Eighth Grade work.

The applicant will be examined in the following subjects: namely, reading, writing, spelling, written arithmetic, mental arithmetic, English grammar, geography, history of United States and physiology. All manuscripts must be neat and accurate, written in a legible hand and the thought must be expressed in good English.

Diplomas will be granted to those who pass the examination provided they are fifteen years of age or over.

The places and dates of holding the examinations will be announced on March 19, 1920.

Respectfully submitted,

LLOYD H. HINKLE,

County Superintendent

Bedford, Pa.

DAVID H. DARR

The funeral of David H. Darr, a well known veteran of the Civil War, who died at Schellsburg on Friday, was held at that place Sunday afternoon and interment made in the Chestnut Ridge cemetery. Mr. Darr died at the Western Hotel, where he had made his home for some time and was aged 83 years. He leaves two daughters, residing in Washington, his wife having preceded him in death. Deceased served in Co. H, 55th Penna. Infantry from October 1861 to August 30, 1865, this company having been recruited in Bedford county and under the command of Capt. George S. Mullin.

A man who can relish boarding house poultry and eggs has no respect for old age.
